MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Office of Personnel Report - Week Ending 13 August 1971

1. Visit to RAD by a Representative of the Navy Department: On 9 August, our Retirement Affairs Division officers were visited by Mrs. Sandra Wixon of the Personnel Programs Staff of the Naval Materiel Command. The Command is preparing to develop a pre-retirement preparation program. They had heard from various sources that CIA has a well-organized program and requested a briefing on how the Agency conducts its retirement planning activities. Our program was explained to Mrs. Wixon who will be responsible for developing a program for her organization. It was apparent, however, that she was primarily interested in the seminar approach since her organization does not have the staff to conduct counseling in the same manner in which we are able to counsel our employees.

2. Machine Print-Out of VIP Participation: We have received the first machine run of participants in VIP. This report, which will be printed each pay period, will show all basic information on each participant as well as the accumulative figures on dollar contributions and shares acquired for each participant. This initial run was somewhat skeletal in that the data on number of shares had not been included at this time. We had previously received a

machine run on shares acquired; this will be "married" to the report just received to give total information on VIP participation.
